“Ad-in-Kids” TENNIS Age 3 to 8

The main goal of this program is to create a positive first experience with tennis so that, as kids grow, so will their love of the sport. All drills and equipment are age appropriate. Children will run, jump and have a good time, without even realizing they are learning. Ages 3–5 will tune motor skills, develop hand-eye coordination, learn forehand, volley, overhead and footwork. Ages 6–8 will learn basic strokes of tennis, play both competitive and non-competitive games, sharpen skills and improve hand-eye coordination. Taught by tennis professionals.
